

	Feature				
	Contacts	Client form	Text font and color	Gallery	Forum/FAQ
What	Contact information like phone number and email.	Online form for clients to fill out their information to be contacted and set up coaching	Text needs to be appealing and easy to read.	Show people events going on.	Place for clients and volunteers to ask questions and REACH and others can give answers
How	Having the phone number and email available on every page as part of the header and footer as well as in the "Contact Us" page.	Client form will be in the "Contact Us" page and have input boxes for first name, last name, phone number, email address, home address	Changing the font to a more design friendly option. Text color is changed to have more contrast with the background.	Click on each picture in the gallery for it to expand	Forum page on the website with original post and comments
Why	It is very important to have contacts easy to find for potential clients, volunteers, and sponsors to be able to reach REACH.	Makes collecting client info easier. Originally must go through a middleman (speech therapist) to meet clients then fill out information in person.	Text needs to be easily readable and pleasant to look at.	Helps to visually represent the organisations work	To provide more information and coaching outside of 1 on 1 meetings
